Software engineer with 13+ years building web applications, engineering tools and interactive browser products. I take products from idea to production, and architect the hard parts: complex state, real-time data, graphics and performance-sensitive UI.

WHAT I BRING TO A COMPANY

01 Zero to production

Ships complete products, frontend to infrastructure.

6 public products

02 Hard-product architecture

Owns the frontend of an industrial HMI studio.

Angular · NgRx · SignalR

03 Cost-aware engineering

Moved AI inference off servers, into the browser.

No server-side AI

04 Full-stack range

C# / .NET, Angular, NestJS, PostgreSQL, Docker.

– Present

Senior Frontend Developer · Farineh Fanavar

Full-time · Tehran · On-site

- Own frontend development for an **industrial HMI design studio** used in automation and control workflows.
- Work across **Canvas graphics**, overlays, explorer trees built on tree data structures, and reusable **faceplates and symbols**.
- Handle **design-mode and runtime behavior**, **SignalR** real-time data binding, Highcharts and **Monaco**-based scripting.
- Built on **Angular, RxJS and NgRx**, with a focus on maintainable state flows and strong typing.

May 2021
– Sep 2024

Full-stack Developer · Freelance

Self-employed · Remote

- Built web applications end to end with **Angular, React, Next.js and Tailwind CSS** on the frontend.
- Backends with **NestJS and Prisma** on **MySQL and PostgreSQL**.

Apr 2020
– Mar 2021

DevOps Engineer · Bookbal

Full-time · Tehran · On-site

- Implemented **all infrastructure** for a self-hosted web application.
- Worked with **Linux, CentOS, Docker, ELK** and Git.

May 2016
– Jun 2019

Frontend Developer · Shatel

Full-time · Tehran · On-site

- Developed and maintained the platform frontend with **AngularJS, Angular, TypeScript** and PWA technology.
- Collaborated with designers and backend engineers to ship new features.
- Contributed to the **design system**, defining and documenting best practices for reusable UI components.

CAREER, CONTINUED

Sep 2015
– Apr 2016

IT Supervisor · Soorati

Full-time · On-site

- Implemented networking for a company with **50+ employees** (VoIP, Hyper-V, Windows Server), and assembled the server running its web app.

Apr 2012
– Sep 2015

Junior Software Engineer · Asan

Full-time · Tehran · On-site

- Built Windows and web apps with **C#, WPF, ASP.NET MVC and Entity Framework**, working closely with clients and delivering before deadlines.

PUBLIC PRODUCTS · BUILT AND SHIPPED END TO END

Remixt

remixt-free.vercel.app ↗

Browser-based audio workstation for remixing songs.

Demucs exported to **ONNX** and run on **WebGPU / Wasm** in the browser, with no server-side inference. Multi-lane **Web Audio** studio and WAV export.

Next.js · TypeScript · PostgreSQL · ONNX Runtime Web

Khalabani

khalabani.vercel.app ↗

Airbus A320 and Cessna 172 flight simulator in the browser.

Fly-by-wire, FADEC, **ECAM**, **MCDU / FMGS**, **autoland** and **TCAS II**, tested against published aircraft performance.

Angular · Three.js / WebGL

Gridways

gridways.vercel.app ↗

Mobile-first traffic-routing puzzle game.

One **~80 kB** HTML file, **zero runtime dependencies**: fixed-timestep simulation, cached Dijkstra routing, headless multi-touch tests.

Strict TypeScript · Vite · Canvas

VasatYab

vasatyab.vercel.app ↗

Finds a fair midpoint for friends to meet.

Auth, transactional email, **Mapbox** geocoding, validated forms and **Playwright** end-to-end tests.

Next.js 14 · Auth.js · Prisma · Mapbox

Siktir

siktir.fun ↗

Turns any link into a shareable button page.

Angular Material frontend, **NestJS** REST API with JWT auth and link scraping, tested with Jest.

Angular 18 · NestJS · Prisma

Project Island

alitaherimotlagh.vercel.app ↗

Portfolio as a drivable 3D island.

Each landmark opens a project dossier; mini-games and **peer-to-peer** multiplayer races.

Three.js · WebGL · WebRTC
